Akyem Permitting Consultation

26th March 2008

Welcome

I'd like to thank Nana Adu-Nsiah, Doctor Owusu, Okyeame Ampadu and your teams for the opportunity for this meeting this morning. I appreciate you finding time in your busy schedule at short notice for us to give you an update on Akyem and discuss the way forward for the project

This is a new team and while some faces may be familiar, some may not. Hopefully by the end of the meeting we'll all know each other a little better.

Our job is to find ways to satisfy your needs so that we are granted our Environmental Permit and to move the Project forward and we are looking to this meeting to move us down that path.

If you are ok I'd like to move on as we have a lot to cover today

Newmont Objectives for Today

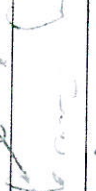

1. Introduce the new Newmont Project Team
2. Present information being used to inform the new EIS document
3. Review the issues raised by EPA at the re-start meeting on 13th March
4. Achieve common understanding of the path forward to generate a revised EIS

ATTENDANCE LIST FOR AKYEM PERMITTING MDAS ENGAGEMENT

Date: 27th March, 2008

Venue: Adehye Guest House, Accra

Akyem Project Update

**Ministry of Fisheries
Ghana Meteorological Agency
Hydrological Services
Irrigation Development Authority
Water Resources Commission**

27th March 2008

Welcome

- I'd like to thank you for the opportunity for this meeting this morning. I appreciate you finding time in your busy schedule at short notice for us to give you an update on Akyem and discuss the way forward for the project
- This is the first time many of us have met and while some faces may be familiar, others may not be. Hopefully by the end of the meeting we'll all know each other a little better – both personally and as organizations
- We are looking forward to your contributions to the discussion and helping us to find ways to continue to move the project forward

Newmont Objectives for Today

1. Introduce the Newmont Team
2. Introduce Newmont, the Akyem Project and our immediate needs
3. Present information being used to inform the new EIS document
4. Discuss Issues
5. Decide the next steps
